**PRECISION
ENGINEERING &
BEYOND...**

We are one of the highly reputed engineering industries in Bangalore, India, manufacturing & supplying high precision machined components and mechanical sub-assemblies. We have 50 years of experience in high precision manufacturing, which has been received very well by customers in Europe, USA and Australia. Our forte has been precision machining of stainless steel/aluminium alloys and wide variety of ferrous/non-ferrous machining including castings, assembly/sub-assembly, machined fabrication, jigs/fixtures and SPM (Special Purpose Machine). Our products and services are well accepted internationally in Aircraft, Automobiles, Pump & Valve industries, Machine tools, Health care and various other industries.

The BNR Group's 32,000 sq. ft. ultra-modern production facility is constantly evolving and is packed with the latest CNC machining & turning centres and other balancing equipment. The sophisticated Standards Room ensures inspection of an extremely high quality with a suite of best-in-class measuring systems. The result of this obsession with precision engineering is a bouquet of high quality products with the backing of an ISO 9001:2000 certification.
