

Kumud Metal Foundry -The One-Stop Shop For Castings

When you think of quality, accuracy and 100% reliability in castings, one name stands out in the industry Kumud Metal Foundry.

Backed by 49 years of experience (the Company began its success story in 1960) and expertise, Kumud Metal Foundry's castings are found in every field and industry. Right from the defense of our country, to taking Aerospace to greater heights, Kumud Metal Foundry has been instrumental in helping the nation move ahead contributing to a greater green revolution and helping tap treasures under the seas. We are the cornerstone of the country's most reputed architecture from factories and industries to residential complexes.

We pride ourselves on being the specialists who produce the finest non-ferrous castings. And we have mastered the technique of manufacturing castings in tricky alloys like **Aluminum Bronze, Manganese Bronze, Silicon Bronze, Cupro Nickel and high conductivity Copper castings**. Our full-service capabilities make us your one-stop casting source, responsible for selection of metal assistance to precision machining and metal finishing.
