Macurex Sensors

Turning visions into reality

M+ACER

Automotive Systems Pvt Ltd

About us

Macurex Sensors was established in 1993 by a team of like-minded professionals with decades of industry experience who had successfully established MULTILINK, the parent company, in 1983, which specializes in two-wheeler auto component. The core business areas where Macurex Sensors focus is **AUTOMOTIVE APPLIANCE & AEROSPACE**

With the growing globalization trends in the country we set up a 100% E.O.U namely Macer Automotive Systems Pvt. Ltd. to handle the export opportunities.

We have a young and dynamic team of professionals, constantly striving to provide the best in class work culture and emphasizing on continuously improving the different processes to deliver only the best to our ever demanding partners in progress.
